

Rospins Foil Color Chart

Digital foil colors are provided for early design planning. Metallic finishes shift with lighting and should be confirmed with physical samples where color accuracy is critical.

Swatch	Name	Category	Notes
	Matt Gold	matt-gold	Digital color is approximate. Confirm final choices with physical samples.
	Metallic Gold	metallic-gold	Digital color is approximate. Confirm final choices with physical samples.
	Matt Silver	matt-silver	Digital color is approximate. Confirm final choices with physical samples.
	Metallic Silver	metallic-silver	Digital color is approximate. Confirm final choices with physical samples.
	Rose Gold	rose-gold	Digital color is approximate. Confirm final choices with physical samples.

Swatch	Name	Category	Notes
	Metallic Red	metallic-red	Digital color is approximate. Confirm final choices with physical samples.
	White	white	Digital color is approximate. Confirm final choices with physical samples.
	Black	black	Digital color is approximate. Confirm final choices with physical samples.
	No-foil debossing	no-foil-debossed	Digital color is approximate. Confirm final choices with physical samples.
